Administrator Dunn,

Thank you for the note.

It was a pleasure to have you tour some of the ongoing work here in Dover. We chatted briefly about our wastewater plant permit and your idea for an overall watershed-based approach. We would welcome the opportunity to meet to discuss in more detail.

I think the ongoing work in Dover highlights how effective the BMP's have been. Bob Lucic will be reaching out to see if we could meet to discuss further. I think Dover would be a good example of how a community is actively addressing nutrient concerns in conjunction with MS4 improvements.

Best regards,
